

TeleWorld Solutions

Coax, & Telephone Wire Services

Our construction and management expertise guarantees the most qualified technicians will employ the most efficient network.

Construction

- Project Management
- Seamless Installation
- Optimal Placement

Management

- Emergency Services
- Restoration Services
- Quality Equipment

Why Choose TeleWorld Solutions?

Full Spectrum

TeleWorld Solutions has the expertise and services to streamline an end-to-end network integration, from design and integration to system monitoring and analysis.

Project Management

Our project managers lead each phase of your deployment to eliminate risks and ensure on-time deliverables.

Comprehensive Service

Aerial and Underground Construction

Regardless of whether cables need to be installed overhead or buried, our veteran cable constructors are well-furnished with modern line tools and cable placement equipment.

Service Response & Restoration

We provide 24x7x365 emergency response and system restoration services using the latest testing equipment, OTDRS, and fault locators. Our full range of emergency underground and aerial cable replacement, hit kits, and splicing capabilities rectify issues expeditiously to minimize disruptions.

Coaxial Cable & Telephone Wire Construction

With a team dedicated to ensuring optimal fiber placement, we are experts in the installation of fiber optic coaxial and telecom lines to MDUs, cell sites, businesses and residences. We offer trenching, micro-trenching, directional boring, conduit placement, fiber cable pulling, and more.

TeleWorld Solutions

Connecting America with advanced telecom networks

TeleWorld Solutions' RF engineers quickly and cost effectively help operators and enterprises advance and future proof their telecom networks.

Industry Expertise

TeleWorld Solutions accelerates the full life cycle of wireless and wireline technology to provide cost-effective, customized solutions to MNOs, MSOs and OEMs, ensuring their networks meet current and future capacity needs
