

TeleWorld Solutions

Full Power of Microwave

Our extensive Microwave Service Portfolio guarantees the most qualified technicians will install and configure your network.

Why Choose TeleWorld Solutions?

Full Spectrum

Our skilled engineers can use all available frequencies in the Microwave range to maximize the efficacy of your network.

Seamless Site Surveys

Our management of precise site surveys lays the foundation for a successful project. We employ state-of-the-art technology and expert teams to ensure your project begins on solid ground.

Safety-First Philosophy

Our robust safety program mitigates risk and keeps our sites and their surroundings up to OSHA standards.

Efficient and Effective

From consulting to design, planning, testing, deployment and managed services we build more efficient and cost-effective next-generation networks. In a final design and as-built document.

Services Beyond

Extensive Experience

Leveraging our experience from several hundred thousand successful wireless implementations, we specialize in creating customized end-to-end network solutions. Our microwave services also include:

- Forward and reverse logistics handling
- Pick, pack and ship
- Kitting/light assembly
- Consumable material sourcing
- Pre-commissioning deployment testing
- Multi-vendor equipment refurbishing

Proprietary Innovations Set Us Apart

Our innovative processes and proprietary technologies ensure that clients' networks meet current, future capacity and performance needs.

TWS Benefits

- Nationwide end-to-end fulfillment solutions
- Proven reverse logistics and asset management optimization
- Execution of forward logistics to support rapid deployment
- Efficiencies of kitting/integration in warehouse prior to deployment
